LIVING IN TWO WORLDS

A life of love

Joseph Martin's autobiography, with remembrances from before birth and throughout his 63 years, shatters our normal perceptions that the physical experience is all there is to life. It is a testament to the truth of Spirit and Source as being our true home. It is a book not just about beliefs, but about inner authentic knowing and creating the life you choose. Going well beyond near-death experiences, this book will enable you to connect with Spirit, Source, spiritual masters, and higher dimensions of reality throughout your days and life. Awe inspiring, deeply original and empowering, this book will shift you into a path of heart-centered awareness.

Praise for "Living in Two Worlds"

"The life of Joseph Barry Martin is not only a story of mind-body-spirit integration, but a showcase of the alchemy between humanity and divinity. Two of the most profound questions we can ask ourselves are "who am I" and "why am I here." Joseph's hero's journey will help you revisit these questions and answers based on the makings of your own life story."

Brian Luke Seaward, Ph.D.

Author, Stand Like Mountain, Flow Like Water

"I cannot remember a time when Near-Death Experiences (NDEs) have been so widely discussed, and readers of this book will discover why they are important. Joseph Martin has lived a very dramatic life, claiming to have spoken with Jesus as a child and to have had his first NDE at the age of eight. Readers may agree or disagree with Dr. Martin's view of reality, but they will certainly not be bored with his stories and some of them may even begin to question their own beliefs."

Stanley Krippner, Ph.D.
